

# PIOTR LIMANOWSKI

## EXPERIENCE

### Technical Architect - Schibsted Tech Polska

Jan 2015 - to date

- Co-lead innovative project of migrating a whole media house into **Amazon Web Services** reducing operations costs and delivery times
- Built a highly-optimised, business workflow-oriented, distributed authorisation, authentication, and payment layer built on top of **Scala** (both actor model - akka and functional typelevel stack) and **Elixir**
- Designed and built administrative tools for process management based upon **Elixir/OTP** improving monitoring, response times and error handling
- Built development tools and continuous delivery processes that improved development and delivery times by a level of magnitude

### Technical Architect - Middleware Services - Nordea

Jan 2012 - Dec 2014

- Designed and built **Java** and **Scala** middleware, business services stack enabling fast service delivery, scalability, simple integration and changeability
- Built and introduced development tools and continuous delivery processes that improved development and delivery times by a level of magnitude

### Java Developer - Financial Analysis & Reporting - Nordea

April 2011 - Dec 2011

- Lead and implemented **Java** and **Ruby** backends for an international rating calculation, analysis and reporting tool

### Java Developer - File Delivery Automation - Nordea

April 2011 - Dec 2011

- Designed and built an automated tool for customisable and secure data delivery, removing multiple shaky solutions and manual processes using **Java** controller and **Ruby** remote agents

### Java Developer - Kaos Consulting

Oct 2010 - April 2011

- Picked as a top-developer for a project by the employer through International Exchange Bureau draft
- Built an automated data analysis and trend recognition APIs based upon **Hadoop** and **Java**
- Implemented intra-language interfaces to accomodate existing subsystems providing an isolation layer

### Web Developer - Photoblog.pl

Oct 2007 - Jan 2009

- Designed and built a mobile website (**PHP**, **JS**), application for the biggest polish photoblogging platform improving mobile usage of the platform several times
- Cooperated on design and implementation (**Java**, **PHP**) of automated photomanipulation effects applied to given photos

## SKILLS

### Programming

Scala  
Elixir  
JS  
Java  
Ruby  
Bash

### Tooling

Git  
Docker  
Amazon WS  
Continuous Delivery  
TDD/BDD

### Professional

Problem Solving  
Technical Leadership  
Goal Orientation  
Commitment

## LANGUAGES

English  
German  
Japanese

## EDUCATION

### Gdansk University of Technology Electronics, Telecommunications and Informatics Faculty

MA thesis: "Face Recognition in the crowd using high resolution camera image". Developed in Java with JNI for compatibility with supercomputer.

Grade: Distinction
